

Parenting Scale — Adolescents

At one time or another, all children misbehave or do things that could be harmful, that are 'wrong' or that parents don't like. Examples include: hitting someone, whining or complaining, damaging things, forgetting homework, leaving things lying around, lying, being over-emotional, refusing to follow requests, breaking family rules, swearing, taking other people's things, staying out late.

Parents have many different ways or styles of dealing with these types of problems. Below are items that describe some styles of parenting. For each item, circle the number that best describes your style of parenting during the past 2 months with your teenager.
